

## Corporate Endorsement

Monique K., Sales Rep

I have been a client of Storage Spot in Milton since just after they opened in 2006. I required a storage facility that would be close to my territory, indoors, climate controlled and safe (that was priority). Storage Spot fit the bill; it was exactly what I was looking for.

I have found the Storage Spot Staff to be, knowledgeable, friendly and well trained to anticipate my needs. I especially appreciate them putting my deliveries from my corporate branch, in my locker for me - because I personally don't have to be there to receive the shipment.

Storage Spot is so different from the traditional facilities; it's exactly what I needed as a sales rep for eye care products. It is so convenient for me, and my supplies are accessible 24-7. It has bright lights, and security cameras everywhere, which make me, feel safe. It's new, clean, and climate controlled, perfect for storing my sensitive products.

I definitely recommend Storage Spot as a place to keep your office surplus and business products, I have not been disappointed by their "above and beyond" service.

---

**Advance Medical Optics:** Advanced Medical Optics, Inc. (AMO) [NYSE: EYE] is focused on providing the full range of advanced refractive technologies and support to help eye care professionals deliver optimal vision and lifestyle experiences to patients of all ages.

Their eye care products serve refractive patients as they are introduced to contact lens wear. They work with their eye care professionals to offer contact lens disinfection, cleaning and wetting formulations that protect and lubricate ocular surfaces, relieve dryness and irritation and increase overall contact lens comfort.

AMO is based in Santa Ana, California, and employs approximately 4,200 worldwide. The company has operations in 24 countries and markets products in approximately 60 countries. For more information, visit the company's Website at [www.amo-inc.com](http://www.amo-inc.com).

### Storage Spot, Milton:

Storage Spot is the discerning choice in custom business storage services. Opened in Milton in June 2006 to service the Halton, Milton and Georgetown area they have received tremendous community support as a new business operator. Storage Spot is located at 30 Market Drive, at the corner of Martin and Market, with Phase II currently under construction, and plans for a second store opening in Burlington early next year.

Storage spot is not like any other storage facility: Conveniently nestled in the local shopping plaza, they are easy access through state of the art climate-controlled dry dock loading bays; safe, secure, indoors and acclimatized with the just the right unit size. Storage Spot is the only local storage company that has a "low carbon fingerprint" in their business operation, as they are powered by "green power supplies." Declan Sinclair, President and Founder of Storage Spot, prides the company and their 12 staff on their excellent customer service.
