

## Attention: Editor

**NOVEMBER**

### **PRESS RELEASE**

Fifteen local hockey players from the Milton Ice-Hawks Pee Wee Flyers will be sporting brand-new hockey bags courtesy of Milton's **Storage Spot Canada**. The bags are just part of Storage Spot's commitment as the team's sponsor and will be presented to the players on Sunday, November 11 at a pizza party hosted by the storage company.

For the second consecutive year, **Storage Spot-Milton** has sponsored a team from the Milton Hockey Association as part of their community involvement and corporate citizenship mandate. "We provide innovative storage solutions for both personal and business users in the communities we operate - so what better way to support the team than to do what we do best, and provide the kids with a portable way to store their hockey equipment." Said Declan Sinclair, President and Founder of Storage Spot. "We are behind them 100%, and personally I am really looking forward to seeing the kids play - "GO FLYERS!!!"

"The Flyers would like to thank **Storage Spot Canada** for their sponsorship, and generosity for providing the pizza party for the team members and their families. The kids will be very excited when presented with personalized equipment bag." Said Coach Frank Tucci. The Coach is thrilled with this level of interest and support from the local business community and is excited to have VIP guest come out and see them play, as they take on the Rockie Team at the John Tonelli arena, Sunday Nov. 11- puck drops at 3:45pm.

#### **Storage Spot Canada, the company:**

Opened in Milton in June 2006 to service the Halton, Milton and Georgetown area they have received tremendous community support as a new business operator. Storage Spot is located at 30 Market Drive, at the corner of Martin and Market, with Phase II currently under construction, and plans for a second store opening in Burlington early next year.

Storage spot is not like any other storage facility: Conveniently nestled in the local shopping plaza, they are easy access through state of the art climate-controlled dry dock loading bays; safe, secure, indoors and acclimatized with the just the right unit size. Storage Spot is the only local storage company that has a "low carbon footprint" in their business operation, as they are powered by "green power supplies." Declan Sinclair, President and Founder of Storage Spot, prides the company and their 12 staff on their excellent customer service.
