Dear Teresa & Everyone at Storage Spot,

What can we say but thank you, we received a tremendous response from this community over the Christmas Season and we thank you so much for being part of this heartfelt contribution.

Day to day staff, foster parents and volunteers work together to support the families and children of Halton who have experienced some form of undue hardship; be it mental or physical illness, tragedy, abuse or abandonment. This support is increased throughout the holiday season to ensure everyone has a chance to celebrate and that no one feels forgotten.

The month of December, while full of festivities and hustle & Bustle can be an emotional rollercoaster for many people. Perhaps more so for the families and children we work with; the parents who having struggled financially, emotionally and/or physically to make ends meet throughout the year or those children in foster care whose feelings of abandonment or loss are intensified because they don't see their parents for the holidays. When these individuals realize that people in their own community wish to reach-out to them with offers of help and understanding they are overwhelmed by the thoughtfulness and care that is obvious in the gifts received.

Our sincere gratitude is extended to those of you who truly helped to bring the community together, bringing hope and comfort to those less fortunate. It is very reassuring to know that while there are many people in need in Halton, we as a community can pull together and do wonderful things for each other at this time of year.

The Board of Directors, staff foster parents and volunteers of the Halton Children's Aid Society & Foundation and especially the families and children that received your help, thank you for your great effort of kindness, generosity and thoughtfulness.

Sincerely,

Tina Blatchford
Executive Director
Children's Aid Foundation of Halton.

Thank you so much for the terrific effort you put forth on our behalf. We really appreciate your enthusiasm and support. Best Wishes,

Tina B.
